would have been approved by latter. No possibility of secrets in Bonn. Thought best to clarify through military channels. Another doc, 16/4/81, clarifies: *"As ons 'n offisier onder dekking in Bonn aanstel, sonder die medewete van die Duitse Departement van Buitelandse Sake, kan probleme ontstaan... [one opinion:] as die Duitse Weermag nie met die Duitse Departement van Buitelandse Sake uitgeklaar het nie, is dit hulle probleem."* But don't want any embarrassment, as military authorities can later deny approval.<sup>32</sup>

1981 Various admin docs on Potgieter appointment.<sup>33</sup>

1981/3/5 Current Bonn MA, Commodore Bitzker, has had term extended by a year. Decision not to place another in Berlin, as possibility of being seen as slap in face of W Germans. Germans keen for undercover SA military representative in Bonn. Relations with Bundeswehr are excellent, W Germany only country willing to share essential NATO codification(?) data. Col GI Potgieter to be placed in Bonn.<sup>34</sup>

1981/4/3 *"As 'n lid van ons Departement sal dit dus, veral vir die Buitelandse Ministerie in Bonn, heel gou duidelik word dat daar 'n amptenaar op die Ambassade lys verskyn wat nie 'n 'normale' diplomatieke beampte is nie."* Tension in the first place a result of elements in German DFA not supportive of SA. If military communication needs can possibly do without, best not to. German political situation uncertain, best to wait. But Berlin option not to be so quickly dismissed, as it is rather the Bonn government who slap SA in the face by not giving approval for replacement of Bitzker.

1981/5/25 I Kroukamp advises that there are only two real options: extend current MA's time until specifically asked to close military office, or that the army trains a bona fide DFA official to meet needs, and close office now.<sup>35</sup>

1982/12/15 Letter from CSADF to DFA on exchange of captured arms with W Germany. Good ties with German MI led to offer of exchange of seized Soviet equipment. Potential benefits listed, recommendation given. List attached of items to be transferred.<sup>36</sup>

1983/6/21 German Minister of Defence, Mr Worner, claims to be categorically in favour of an SA military mission in Germany, in disagreement with previous government. Will personally raise with Chancellor and with Minister of Foreign Affairs, Mr Genscher (who is of a different mind). Much disagreement within the coalition.<sup>37</sup> Numerous other docs on the political issues involved in this issue, discussion held, etc. DFA claim decision based on SA treatment of Germany (e.g. visa and travel restrictions). Early 84 sees seeking of a modus Vivendi, such that SA can't be accused of deception.<sup>38</sup> Bitzker term by now extended to 7 years. Genscher believed to have informants in MoD. Chancellor requires Genscher for coalition stability. Possibility for Bitzker to go "on leave" to

Offer to make purchases to gain trust, gain complete intel. In exchange, wants SA passports for self and girlfriend, assurance of shelter if things go wrong, anonymity. Asks for info on what Swapo might want, to make purchase believable.

Description/impressions of Mr Ingold Buck. He provides some information on shipments to Swapo.<sup>40</sup>

1984/1/31 Note (from Pretoria to Bonn?) advising that Mr Buch's friendly offer be rejected, as doubt over bona fides, suspicion that offer may involve attempt at immigration. [Secret departmental note on role of SA Amb in Switzerland in dealing with limits placed on loans to SA (only country with which Switzerland does this.)

1978/4/20 Berne embassy to DFA PTA, on Swiss attitude on arms embargo. In response to question from UN, Swiss answered that they have had arms embargo since 1963, strengthened by "Kriegsmaterialgesetz" of 1972, although not part of UN. Fact of response to question "*is vir ons ietwat 'n tergugslaan*".<sup>71</sup>

1978/6/21 Geneva mission to DFA, on alleged bank guarantee agreement between a French company and Armscor. Attaches letter from the Bank of Indochina and Suez (Lausanne branch, Switzerland) and original of guarantee issued by it to Armscor. Guarantee "*concerns an agreement which was apparently entered into between Havas Submarine Inc. Catus France and Armscor for the delivery of equipment purchased by Armscor from the said French entity*". All attached. Guarantee value of US\$22,600. Also numerous cover letters from various, on this. Many copies of all.<sup>72</sup>

AG investigating transport of rifles from London via Zurich to SA. Reportedly from Colombia and declared to Swissair as hydraulic tools.<sup>74</sup>*

1983/1/26 DG DFA note to DG Transport, drawing attention to points in letter from Swiss Ambassador, attached. Letter on Lugano office question and SAA activities in Switzerland. Quote from Zurich SAA rep to his head office: *"Krygkor who maintains an office in Lugano have indicated that at present many large shipments of sensitive material were being freighted to South Africa via Milan but that Zurich may be used in future as better security existed"*. Ad hoc shipments from Aeromacchi in Varese moved via Frankfurt. Especially given Swiss Federal AG investigation, this leads to Ambassador's recommendation, as referred to in DFA cover letter, that: SAA HQ *"be requested to remove relevant paragraph from their representative's report and classify information as secret"* and that *"Armcor be requested to instruct their representative to exercise utmost care and if absolutely necessary ship only those consignments from Varese to South Africa via Zurich which cannot (repeat) cannot be directly identified as equipment or spares for SAAF. In all other cases Zurich as transshipment airport should be avoided as we are convinced that Swiss authorities are on alert."* According to SAA, person in charge in Lugano is Mr Andre van Ghent.<sup>75</sup>

1983/2/16 Armcor to DFA, on alleged illegal sales of arms via Switzerland. Friendly reminder that Armcor is not part of SADF, and that foreign procurement issues to be directed directly to Armcor, to avoid unnecessary delays. Page covered with handwritten notes [not legible to me].<sup>76</sup>

1983/2/21 From SECEXTERN PTA to SALEG BERN. *"The material supposedly exported to South Africa to which publicity was given in the Swiss press and on television was not purchased by Krygkor [handwritten note says "Sien 9/56/12 Geheime Leer"]... It is confirmed that Krygkor has no (repeat) no office as such in Lugano... The report of the SAA representative in Switzerland was entirely speculative..."*. Attached, note from DG DFA to CSADF asking for comment on Armcor Lugano office statement.<sup>77</sup>

1983/10 Paper by Dr Bettina Hürni, of Neuchâtel University. Lots of background on Swiss banking and secrecy. Section on *"The activities of the Swiss Transnational Banks (TNBs) in South Africa"*: *"Switzerland is the sixth largest investor country in South Africa... Total lending of the three largest Swiss banks to South Africa was SwF200 million in 1979 and SwF375 million in 1980... As the Swiss authorities forbade public bond issues in South Africa, the Swiss loans are all private placements, with relatively short maturities, mostly up to five years... From 1971 to 1974, Swiss capital exports to South Africa increased rapidly and were criticized nationally (in Parliament) and internationally. In 1975-1979, therefore the authorities set a maximum level of up to SwF250 million for capital exports to South Africa for which official authorization was needed to control the financial flows to South Africa. For 1980, the authorities no longer fixed a maximum level but introduced a more flexible, realistic notion..."* On the role of the Zürich 'gold pool': *"The fact remains that the "Zurich gold pool" no longer has a quasi-monopoly position in the sale of South African gold."* Extensive appendices

1984/8/1 Secret memo, with handwritten note to Mr Schutte. Basic elements of relations between SA and Switzerland, limits on loans. *"Daar is verskeie instansies wat 'n intensiewe belangstelling aan die dag sou lê indien dit aan die lig sou kom dat die Suid-Afrikaanse Ambassadeur deur voortdurende be-arbeiding daarin slaag om die Switserse Regering te beweeg om Switserse banke toe te laat om die mees voordelige voorwaardes vir lenings aan die RSA, wat in die omstandighede moontlik is, toe te staan. Onder dié instansies tel o.a. die Switserse parlement self, met spesiale verwysing na linksgesinde persoonlikhede en partye...Dit sal begryp word waarom gedailleerde besonderhede in hierdie evaluasie nie verskaf word nie... In dié scenario geniet die Suid-Afrikaanse Ambassadeur die vertroue en welwillendheid van o.a. die President van die Switserse Nasionale Bank, die Voorsitter van die Raad van Direkteure van die 'Bank for International Settlements,' die President van laasgenoemde Bank en die Algemene Bestuurder van die Union Bank of Switzerland."* Gives some indications of sensitivity of financial relationship, e.g. WCC withdrawing business from UBS as result of SA link, Swiss unions making trouble. All amounts to recommendation to upgrade rank/status of Amb.<sup>79</sup>

1984/8/3 Report from Bern embassy rep on relations, notably financial ones, in motivation for need of a highly experienced SA Ambassador to be placed. Discussion of the fact that Switzerland's ceiling on financing to SA is widely and intentionally publicised, but that secret agreements have been made to provide the most favourable conditions to SA. Switzerland's "neutral" position on SA is largely a result of the influence that bankers have on politics, and the social relations that SA ambassadors have with Swiss bankers are thus vital. Understandably, details on this not given. This situation was not raised in the recent general meeting between SA and Swiss government reps and officials, but instead raised in private between the PM and President Schlumpf. The President of the Swiss National Bank, the President as well as the Chairman of the Board of Directors of the "Bank for International Settlements", and the GM of the Union Bank of Switzerland are in on it, among others. Some other reasons for need for experienced Ambassador, including the unusually broad scope of propaganda services, formerly under Department of Information.<sup>80</sup>

1985/7/16 Ambassador Dennis Worrall to Minister of Finance Barend du Plessis, informing that feedback from bank representatives that the Minister had recently visited in London was positive, but that there were still reservations in the Embassy about Chris van der Walt's appointment. *"...the concern is that somebody, coming in from the outside and unaccountable to this Embassy, will simply introduce confusion."* Questions of seniority, chain of command.<sup>81</sup>

1985/8/23 C van der Walt to Minister of Finance, reporting that A Katz of Rothschilds in London had pledged his assistance to SA to Minister Botha, but may actually be posturing, as well as leaking the contents of these discussions. Possibility that Katz is being misleadingly and intentionally discredited with South Africans. Minister of Foreign Affairs comments on the above at 27/8/85. Katz and

1979/10/19 Translation from Jornal de Madeira article. *“In connection with the visit of the South African Ambassador, Mr. Wouter Malan, to the Autonomous Region of Madeira, some considerations have occurred to us regarding the migration problem which is part of the life of the people of these islands in the Atlantic.”* On the struggles on Madeirans abroad. *“Nearly three hundred thousand Madeirans make it [South Africa] their home, their land... Madeira cannot turn its back on that Country which, in a certain measure, has become its continuation in Africa’s farthest point. Nor should it remain indifferent to the policy of abusive interference in South Africa’s internal affairs, carried out by national politicians who do not have the science nor the ability to solve all the many problems that afflict and suffocate the internal life of their own country – Portugal.”*<sup>102</sup>

1980/6/12 From Malan to AA Mare, attaching Eksteen’s text regarding Sargo. No wish to meet Sargo at all. Uncertain of bona fides or claim to PM instruction. Other suspicious issues. Nevertheless, if other channels can be found, it might be considered, *“natuurlik op die veronderstelling dat die hulp op die mees onopsigtelik moontlike basis deur geheime kanale gereel souk on word... Ons hulp sou dus moontlik aanleiding kon gee tot die aanvra van quid pro quos soos voorsiening van tans onverkrybare wapens of toerusting, beter toegang tot die EEG via Portugal ens, of op die minste sou die huidige regering waarskynlik nie so maklik onder toenemende buitelandse druk om verhoudings met ons in te kort, swig nie en sou ons bilaterale verhoudings met ander woorde meer geneig wees om op die huidige positiewe trant voort de duur.”*<sup>103</sup>

1980/6/12 Secret message from Lisbon to PTA, but apparently from NY. *“’n Ene Sargo, ’n Portugees, met publisiteitskontakte het my vanoggend kom sien om te vertel dat hy met wete en aanmoediging van Portugese Eerste Minister ons kontak ten einde te verneem of Suid-Afrika fondse kan gee vir komende verkiesing wat hy reken sy gespreksgenote in Lissabon kan wen. Sou ons geld gee, wil hulle weet wat ons in ruil vir daardie steun wil hê... Al sy kontakte met allerlei persoonlikhede en verbintenisse met Madeira maak vir my geen sin nie. Dit lui alles klockies by my, maar dit is al.”*<sup>104</sup>

1980/6/16 Follow up message that it has been established that the AD gov. has no shortage of election funds, and that they have many friends in Europe who could help. Possibility of it being a political ploy.<sup>105</sup>

[Handwritten notes: - Israelis facing currency fraud charges in SA &].

1977±? "Extract from annual report Israel". Notes that UN arms embargo has placed pressure on relationship. Security now at the level of critical importance; US-origin components to be reconsidered or replaced with local substitutes; weaponry ordered by Israel on behalf of SA can now only be made if also required by IDF; US policing of embargo still to be determined – if so, re-evaluation required, if UN special committee instead, insurmountable problems not foreseen. SA is Israel's best single arms client. Military co-operation not considered threatened at this stage.<sup>114</sup>

1975/3/5 Tel-Aviv consulate to DFA, on Armaments Board representation in Israel. To clarify matters across the "several operations going on simultaneously", Mr Jagoe to be "the only representative of the Armaments Board to be a 'member' of our mission". Reports on high level meetings in this regard with Israeli defence force. Cover to be that of "Consul (Scientific)". Lists various issues of institutional relationships, cover, security. *"We are asked to furnish our recommendations, but the Department will appreciate that we are under a handicap in this regard as we have not been put fully in the picture regarding the scope and implications of the growing co-operation between South Africa and Israel in the military field, the ramifications of the Armaments Board's projects, or the dangers facing South Africa in regard to the future oil supply... We only became aware of development on the military side, at a stage when agreements between the two countries to co-operate in this field had been concluded or had at least reached an advanced stage..."* Mention of Haifa project. Have already had to maintain alibis of Col Maree, Mr Rothman and Mr de la Bat of the Armaments Board.<sup>115</sup>

1976/7/21 Tel-Aviv embassy to DFA, on offer of supply of equipment. Retired General, Shmuel Gonen, from firm DENIT, claims access to source in Europe able to supply spare parts for Centurion and Sherman tanks, among others that may not be directly obtainable from Israel. Also materiel from Eastern bloc. Enquiries with local MOD revealed Gonen lacks necessary clearance, and that all purchases are to go through Israeli Director of Arms Export.<sup>116</sup>

1976/10/17 Tel-Aviv embassy to DFA. Reports that military co-operation is becoming public knowledge locally, primarily via foreign media. Has also been raised in Knesset. More scrutiny expected. Attaches recent news reports from local press. Headlines: "Israel is building missile boats for SA", "South African sailors are training in Israel before receiving the missile boats", "50 SA sailors are training in Israel".<sup>117</sup>

1978/12/7 CSADF to DFA. Message from PM to Israel given in meeting with Israeli rep, Weizmann. Objects to Israel's public support for pressure on SA, is siding with SA's enemies. Deduces that "Israel wants to strengthen her international position at our expense". Reminder given that both are equally vulnerable, fighting same enemy. Israel expected not to unnecessarily increase the pressure on SA. Israeli rep: *"I accept the message as from a friend that is hurt... Please convey my respects and esteemed friendship to Mr Botha. I will do my utmost to restore relations."* Further record of meeting. Comment on meeting record: given apologetic reactions, *"bevel Hopper aan dat die laaste gedeelte van Eerste Minister se boodskap nie verder oorweeg moet word nie. Ons moets wag op hul antwoord voordat ons weer saak verder voer."* Cover letter, confirming this last.<sup>119</sup>

10/10/90 From Tel Aviv embassy to Derek Auret, "Roete HDAM". Co-operation between Armscor and Israel extremely important – SA can't get by without it. This to be weighed in issue of closing Armscor office. Nevertheless lays out arguments for closure: that Arab states will not engage with SA while current relationship with Israel continues; relationship a problem for Israel with US, thus constant sword overhead; too many SA kids in local international school, Afrikaans heard in local shops – raises suspicion; "New South Africa" whites might suffer under perception of contrast between pro-Israel old SA and certainty of pro-Arab new SA.<sup>120</sup>

1993/6/8 From PLU Viljoen, Deputy Director: Middle East, to CJB Wessels, Acting Chief Director: rest of African and Middle East. Report on meeting with DMI on future of existing military contracts with Israel. DMI wants to know what guarantees General Steyn might give his counterpart (at a planned meeting) *"on keeping Israeli military secrets known to the SADF safe after transition"*. Advised that secrecy could not be guaranteed and that *"it would be wise to inform appropriate leaders in the ANC of the nature of these projects and attempt to 'get them on board' before they made this discovery of their own accord..."* Also discussed issues of accreditation of MAs and of contact established with PLO.<sup>121</sup>

Building of Israeli relationship with ANC to be done very carefully, with Armscor to help.<sup>126</sup>

1993/7/7 To D de Goede through PLU Viljoen, compiled by AB Greenham. *"Following media reports on the Reserve Bank investigation into alleged illicit currency transfers by officials attached to the Israeli Embassy in Pretoria, Mr D Auret, AADG, discussed the matter with Mr A Ellis of the Reserve Bank..."* Report of discussion. Also mentioned: Aron Dagan, Mr Kapelovich.<sup>127</sup>

1993/7/11 Notes of meeting btw DG DFA and Brigadier Clark. Status quo: numerous common areas (historical links, military threats, ethnic division etc.), and sensitive areas (arms procurement projects, MTCR, military representation etc.). DFA position: importance of relationship fading, Arab states increasing; transparency to be promoted. Discusses risks during/after transition. New government not expected to have similar position, and this to be taken into account in meanwhile. But IDF to be assured that new SA will have pragmatic, "SA first" policy, and that the SADF will endeavour to convince "other groups in SA" of importance of link. Relations with other important states like UK, France, US, Russia not be put at risk by relationship with Israel.<sup>128</sup>
